

## **Field Study Advisory Group Update**

The Committee reviewed **preliminary data** collected for a mid-range plan to address field needs for the fall of 2012 when girls' soccer is moved to a fall sport.

**Estimated** rental costs are \$25,750 for all games and practices to be played at In the Net Sports Complex for girls soccer, boys soccer, field hockey, girls lacrosse and boys lacrosse. Estimated maintenance savings in labor and supplies is \$14,600.

The Field Study Advisory Group recommends **further exploration** of this option including discussions with coaches and Booster Club representatives for feedback and identifying a means to fund the estimated shortfall of \$11,150.
